PROFESSIONAL SUMMARY

Results-driven developer focused on building scalable web applications with strong expertise in full-stack development, data structures, and problem-solving. Solved 400+ LeetCode problems and built real-world projects through hackathons. Passionate about writing clean, efficient code and continuously improving algorithmic thinking and system design skills.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School Of Technology, Rishihood University	Grade: 7.0/10.0
Intermediate (Class XII)	2022 - 2023
Montfort Academy	Grade: 73.2%
Matriculation (Class X)	2020 - 2021
Saint Joseph's School	Grade: 85.6%

INTERNSHIPS

Full Stack Developer Intern	April 2026 - June 2026
Bizowl (White Sense Pvt. Ltd.)	Remote, Delhi

- Developed and maintained full-stack web applications using **React/Next.js, Node.js, Express.js, MongoDB, SQL databases**, and **Firebase**, delivering features from development to deployment.
- Designed and integrated **RESTful APIs**, optimized backend services, and implemented Firebase services for real-time data synchronization, authentication, and seamless user experiences.
- Collaborated using Git/GitHub, contributed to code reviews and debugging, and delivered scalable solutions following clean coding and deployment best practices.

Backend Developer Intern	April 2025 - July 2025
Swyftin	Remote, Delhi

- Assisted in developing and maintaining backend services using **Python, SQL, and FastAPI**.
- Collaborated with the development team to design, implement, and test new features for web applications.
- Debugged and resolved issues, optimized application performance, and contributed to code reviews.
- Worked with **REST APIs, databases**, and third-party integrations while following clean coding and documentation

PROJECTS

StaySync (Github) (Demo)	December 2025
---	---------------

- Engineered a **role-based hostel management platform** with **10+ core modules**, including room allocation, complaint management, QR-based gate passes, payments, attendance, and analytics, serving students, administrators, and security staff.
- Built a scalable full-stack application using **Next.js, Node.js, Express.js, and MongoDB**, implementing JWT-based RBAC authentication, Redis caching, Razorpay payment integration, automated notifications, and REST APIs for streamlined hostel operations.
- Digitized hostel workflows, **reducing manual administrative effort by 85%**, while improving operational efficiency through workflow automation, secure access control, and modular backend architecture.

QuickKart AI – Region-Aware Intelligent Commerce Platform (Github) (Demo)	November 2025
--	---------------

- Engineered an AI-powered commerce platform integrating **200+ products** from **2 external APIs** through automated ingestion pipelines, building **15+ REST APIs** with server-side search, filtering, pagination, JWT-based RBAC authentication, reviews, wishlist, and secure checkout.
- Developed a **region-aware recommendation engine** using **4+ behavioral signals** to power **5+ personalized recommendation modules**, including **Trending Near You, Popular in Your Region, Recommended for You, Recently Viewed**, and **Frequently Bought Together**.
- Architected an **event-driven analytics and inventory intelligence system** with Redis caching, user behavior tracking, regional demand analysis, optimized MongoDB queries, and intelligent product ranking for scalable commerce operations.

SKILLS

Computer Language: CSS, HTML, JavaScript, Python, TypeScript, Java

Databases & Data Tools: MongoDB, MySQL, PostgreSQL, Supabase, Firebase

AI / ML: Generative AI, Hugging Face, RAG

APIs & Testing: API

Cloud & DevOps: Docker, Git and Github

Domain & Business Skills: Figma

Frameworks & Libraries: Django, Next.js, Node.js, NumPy, Pandas, Prisma ORM, React, Tailwind, React Native

EXTRA-CURRICULAR ACTIVITIES

- Winner of **Hack the Hunt**, a coding-based treasure hunt. (GitHub, terminal commands, and problem-solving strategies.)
- Active member of the Coding Club, participating in coding contests, peer learning sessions, and technical discussions.
